These guys were great. I love supporting local diverse businesses and this company has earned multiple recommendations from me. They showed up on time and ready to work, and indeed finished well before the allotted reservation time slot. They even made sure to bring enough strong arms to deal with my upright piano on the second floor, and they did it with plenty of care. They also stayed safe despite the ridiculous heat and wore masks, which we appreciated even more. Everything made it across the country in our move great

I completed two moves with Sky Line moving Company. First from a 900 square foot apartment to my new home. Then my friend and daughter were giving me furniture so I called them to coordinate to go to both places & pick up & and bring to my new house again. Every step of the way they were responsive, communicated well and arrived with mask & gloves & handled both of my moves with up most care & respect. Affordability, great customer service! I would recommend to family & friends!

Movers - from start to finish and all people involved. Between the original assessment, the follow-up calls, and the final move were all beyond my expectations. They gave us a timeline and worked within it. The movers were careful and did not damage a single piece of furniture. They asked where I wanted furniture placed in the new house and reassembled all items. They were very friendly. I think this company will go very far in this industry and I wish them all the best.

I am not someone that generally takes my time to write reviews, but I had to take a moment to write a review for Sky Van Lines Moving. They are amazing. The two men they had come out, had great energy. They were kind, courteous, took great care of my furniture, and moved quickly while making sure to protect my valuables. They showed up on time, called in advance to let me know when they would arrive. I felt so supported by them. They really took property time in taking down and setting up my large king bed. I was really nervous about moving it. I am so happy with this moving company. They will for sure be my movers in my next move. Thank you!

The movers did a wonderful job moving all the household items. They were courteous, competent and supportive. They moved our furniture as well as antique artworks without any scratch or dent. They had no remorse or complaint for moving our extra items that was added at the last minute of the move. Phenomenal service

These guys are awesome. We just wrapped up an unloading job and it was so smooth and easy. The guys showed up early so we got started ahead of schedule. We also finished several hours early so I saved money compared to the quote. 3 guys unloaded 2 fully stocked PODs in about 3 hours (of course every POD is different and all our boxes were labeled which helps). They took care to pad all the stairs railings but honestly they didn't need to do that. They were careful with everything and I never once was worried. The crew was awesome and I can't praise them enough. Very professional and a pleasure to work with throughout.

This is our second time using this company to move, and they have not disappointed us! The movers are super fast and efficient. Courteous and professional. Prices are competitive. The guys were able to get a couch into a room I thought would have been impossible, but they did it and with no damages! A++ all around...

These guys are the best! They've done two moves for me now, and I wouldn't go with anyone else. Mover were incredibly friendly and professional and took so much care with all my things. I am so grateful to them. Owner is fantastic as well: he called me in the morning to let me know which guys would be coming to move me, then called at the end of the job to ask how everything was. The people in the office are also wonderful and willing to help with anything. Thank you guys for making my move affordable and stress-free!!

Second move with this moving company. Was able to book in advance. Crew showed up a little early, got right to work. Everything moved in less time than was estimated. Hard workers, careful to avoid damaging anything. Did a great job, will be using them for another move later this year.

The guys came in to help us out a couple of weeks ago. I was a bit skeptical about hiring movers and my husband was even prepared to pitch in and help out, but SURPRISE, he didn't need to. The guys moved quickly and proficiently. Nothing was damaged and they even set up our bed. This was by far our easiest move, and should we decide to move again, we'll be calling for sure.

The team was quick and responsive to give our demands. The crew was super-fast and efficient to make sure that the move is done within the timeline. Our crew was friendly to make sure that nothing was done in the extended time that we pay the extra charges.

Some months ago they came to my parents house to move some furniture. They were so quick and efficient, and new exactly how to solve a problem in a pinch. We had items going to different places and they took the entire job in stride, even when, at one point, they had a bit of difficulty maneuvering a freezer down a flight of basement stairs. I was really impressed!! Definitely going to request these guys the next time I need Sky Van Lines.

The guys were very careful to put my belongs in the correct rooms in the new house to make unpacking easier for me. These young men worked hard and never slowed down their pace! I would definitely use this company again and highly recommend them

Very satisfied, great customer service, excellent packing and moving service! I wasn't able to be there in person for the move so I was a bit nervous Sky Moving Company did an amazing job. They followed my instructions well and was transparent with their pricing. I appreciated the time and patience in our communication before the move. Also, I thought the movers were really skilled in their packing techniques as they used as little extra boxes as possible by making use of what you already had, which also cuts down on the move slightly. You can try!!

This was my first time using a moving company, and I was very impressed with these guys. They were very friendly and professional. It was ridiculously hot the day I moved, and these guys still worked quick, but carefully, and had all my stuff moved in just over 2 hours. I would recommend this company to everyone, and I will definitely use them again in the future.

This moving company is excellent! Movers were on time, communicative, professional, fast, efficient, and helpful. All the things you look for in a moving company. The Owner was transparent, available to support my moving needs, and there were no hidden costs. I would 100% recommend them to any of my friends. We moved from LV TO CA and they were prepared for everything, parking the truck on a busy street, disassembling complicated furniture, removing doors when necessary, taking stairs when things didn't fit in our elevator, all with a positive attitude. They have a great team there and I'm so happy I went with them! Thanks 🙌🙌🙌

I found Sky Van Lines Moving and booked the service for my move. The movers all acted very professionally the entire time and they followed my instructions step by step. They took extra special care with my furniture and worked extremely hard around tight spaces to get large pieces of furniture through. I would tell you to book them.
